PROGRAMME

ACT I : THE LANDS BEYOND

Beyond The Horizon

Into The Dark

Daydreams & Fears

Follow The Stars

What We Carry

ACT II : THE LANDS WE FIND

The Sound Of Us

What Is and What Should Be

If This Reaches You

Let Me In

SYNOPSIS

L'Aube invites us on a journey through extraordinary lands. From thrilling adventures and restless nightmares to dreamscapes, starlit wonders and worlds coloured by our deepest emotions.

Along the way, we discover the magic of music, the words we struggle to say, and the people we wish we could hold on to just a little longer. Each land reveals a different part of ourselves, reminding us that the greatest adventures are not always about discovering new places, but about understanding who we are and the connections we make.

Because no matter how far we wander, the journey always leaves us changed, with memories to treasure, lessons to carry, and a new dawn waiting beyond the horizon.

A Message from our Director

Dear audience,

L'Aube is a little piece of my heart. It is a journey through the many worlds we experience, the emotions we carry, and the people who leave their mark on us.

As I brought this show to life, I wanted to create more than a series of performances. I wanted to tell stories that remind us of the beauty of being human — of daring to explore, allowing ourselves to feel, finding our people, and learning to let go when the time comes.

To my dancers, thank you for trusting me with this journey and for pouring your hearts into every movement. Watching you grow, both on and off the stage, is one of the greatest joys of what I do.

To our families and supporters, thank you for believing in us and being part of this journey.

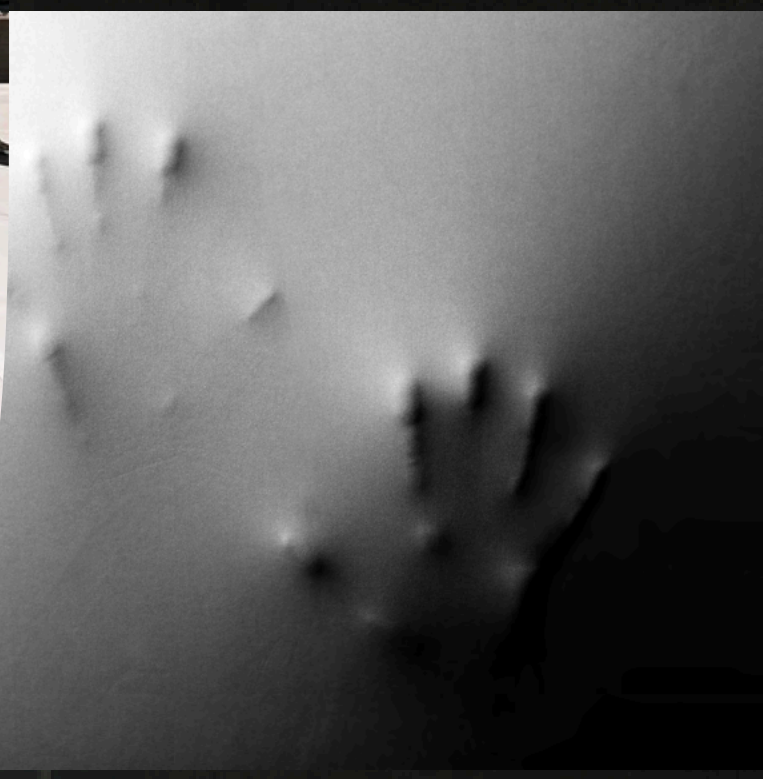
I hope that as you watch L'Aube, you find a little piece of your own story within ours. And wherever life takes you, may you always find the courage to begin again.

With love,
Step

BEYOND THE HORIZON

by STEP Supper Club (SSC)

Every journey begins with a choice: to stay where we are, or to sail beyond what we know. In the Land of Adventure, the horizon is endless, the rules are few, and every wave brings the promise of something new. With a little courage, a little mischief and a whole lot of freedom, our travellers set sail in search of whatever waits beyond the map.



INTO THE DARK

by STEP Junior Crew

But every adventure has its shadows. When the lights go out and the world becomes unfamiliar, even the smallest sound can become frightening.

In the Land of Nightmares, our travellers meet the creatures of their imagination and discover that sometimes, the things we fear are not as powerful as they seem.

L'Aube

DAYDREAMS & FEARS

by To BeCome (TBC)

Beneath a world of soft shadows and endless skies, the travellers enter a place where anything can happen.

Here, dreams take shape... but so do our fears, our wishes and the things we quietly hope for.

In the Land of Dreams, there are no rules about what can be real.

L'Aube

FOLLOW THE STARS

by the STEP Mini Crew

Sometimes, the smallest things can light up the biggest world.

Following the stars beneath their feet, our youngest travellers discover a place filled with friendship, laughter and little sparks of joy.

Here, they remind us that happiness doesn’t have to be something we strive to achieve. Sometimes, all we need is someone to dance with.

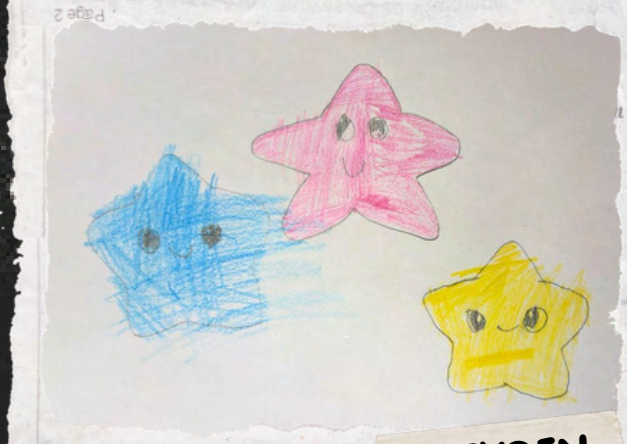
CHANTELLE

REI ERN

JOSIAH

YUNXI

JOY



TREYDEN

QIAN YING

Artwork used for projection was done by our mini crew dancers themselves!

Special shoutout to our local artist, DJ TINC, who wrote & sang “After Rain - Into The Light Remix”, the second track used in this piece. She’s Treyden’s mommy!!!

L'Aube

WHAT WE CARRY

by STEP Supper Club (SSC)

Every traveller carries something they cannot leave behind. In this land, emotions take colour and shape.

Anxiety and anger burns red, sadness disappears into black, love holds us close, and wonder fills the world with possibility.

But the things we carry were never meant to keep us down. Perhaps, when we learn to hold them differently, they can help us rise.

L'Aube

THE SOUND OF US

by To BeCome (TBC)

In this land, music is more than something we hear... it is something we become. A single beat can change the way we move, a melody can bring us together, and one conductor can turn a room full of individuals into one living rhythm. Here, the music leads... and the body follows.

STEP 12

L'Aube

WHAT IS AND WHAT SHOULD BE

by Bryan, Clarissa & Mat

Caught between external expectations and internal truths, we navigate the invisible forces that shape our choices. A struggle between who we are, who we want to be, and who the world expects us to become.

IF THIS REACHES YOU...

by STEP Junior Crew

Some words are too difficult to say out loud. So here in the land of letters, we write them down, fold them carefully, and send them across the distance.

Each little boat carries a message — a memory, a hope, a thank you, perhaps even a goodbye. And sometimes, the things we cannot say with our voices find their way to someone through a simple piece of paper.

LET ME IN

After travelling through worlds of adventure, fear, dreams, emotions and wonder, our journey brings us to the Land of Time — where every moment is precious because it cannot be held forever.

by STEP FAM

Here, the greatest distance is not measured in miles, but in the space between two people who can no longer find their way to each other.

In the Land of Time, every moment feels fleeting, every second bringing us closer to an ending we may not be ready for. One reaches out, the other pulls away. And as time moves quietly forward, we urge you to let us in, one more time...
